

Activity 1.1

Instructions:

1. Research and find at least three articles that discuss the difference between HRI and HCI.
2. Read and analyze the articles to identify the main differences between the two fields by addressing the following questions:
 - What is HRI, and how does it differ from HCI?
 - What are the key challenges and opportunities in HRI, and how do they differ from those in HCI?
 - What makes HRI unique as a new field, and why is it important for researchers and practitioners to understand this difference?

You can share and discuss your opinions in Discord.
